Procedure Documentation

Longitudinal Care:
I am initiating/providing ongoing, longitudinal care to this patient.
Medication Reconciliation:
Medication reconciliation was performed on this patient.

Assessment / Plan

Was patient referred by a home health agency? No. HCMG AVS communication sheet printed and provided to patient/family/caregiver at the end of today's visit. All questions answered.

1. **Mixed hyperlipidemia**
Chronic and stable
We would cont with current statins dose
We would check labs in 1-2 x a year
Raised understanding

E78.2: Mixed hyperlipidemia
- ezetimibe 10 mg tablet - Take 1 tablet(s) every day by oral route for 90 days. Qty: (90) tablet Refills: 4 Pharmacy: DISMUKE'S PHARMACY
- rosuvastatin 40 mg tablet - Take 1 tablet(s) every day by oral route at bedtime for 90 days. Qty: (90) tablet Refills: 4 Pharmacy: DISMUKE'S PHARMACY

2. **Moderate major depression**
NO SI HA . We would continue with same dose of current SSRI/ Depression medication raised understanding
F32.1: Major depressive disorder, single episode, moderate
- mirtazapine 15 mg tablet - Take 1 tablet(s) every day by oral route for 90 days. Qty: (90) tablet Refills: 4 Pharmacy: DISMUKE'S PHARMACY

3. **Chronic GERD**
Chronic and stable
We would continue with current meds : PPI/ (pantoprazol)H2B (famotidine)
No GIB concerns eleicit during the visit .
Raised understanding
K21.9: Gastro-esophageal reflux disease without esophagitis
- pantoprazole 40 mg tablet,delayed release - Take 1 Tablet(s) Oral every day 30 minutes before meal Qty: (56) tablet Refills: 4 Pharmacy: DISMUKE'S PHARMACY

4. **Seasonal allergies**
chronic and stable
We would cont with prn meds with otc allergies meds

J30.2: Other seasonal allergic rhinitis
- fluticasone propionate 50 mcg/actuation nasal spray,suspension - Spray 1-2 spray(s) EVERY DAY by intranasal route. Qty: (1) 72 inhalation Refills: 3 Pharmacy: DISMUKE'S PHARMACY

5. **Chronic anemia**
In symptomatic patients with HFrEF **and** iron deficiency anemia consider initiating IV ferric carboxymaltose (or alternate intravenous iron) to alleviate heart failure symptoms, improve exercise capacity/quality of life, and reduce heart failure related hospitalizations.
D64.9: Anemia, unspecified
- ferrous sulfate 325 mg (65 mg iron) tablet - Take 1 tablet(s) every day by oral route. Qty: (90) tablet Refills: 4 Pharmacy: DISMUKE'S PHARMACY

6. **Gouty arthritis**
Consider initiating uric-acid-lowering therapy (ULT) is recommended for patients with one of the following:
-For people with CKD after their first episode of gout (particularly where there is no avoidable precipitant or serum uric acid concentration is >9 mg/dl [535 mmol/l]).
-More than 1 subcutaneous tophi
- Evidence of radiographic damage secondary to gout
- More than 2 gout flares per year

M10.9: Gout, unspecified
- colchicine 0.6 mg tablet - Take 1 tablet(s) every day by oral route for 90 days. Qty: (90) tablet Refills: 4 Pharmacy: DISMUKE'S PHARMACY

7. CAD, multiple vessel
Chronic and stable
We would cont with current medications
Advised to make appt with cardiologist and to call us if any chest pain arises

I25.10: Atherosclerotic heart disease of native coronary artery without angina pectoris
- prasugrel HCl 5 mg tablet - Take 1 tablet(s) every day by oral route. Qty: (90) tablet Refills: 4 Pharmacy: DISMUKE'S PHARMACY

8. Hypertensive heart disease with chronic combined systolic and diastolic congestive heart failure
Chronic and stable
We would continue with current medication adn close follow up with cardiology if specialist on board
Discussed the importance of medication complicance and to been SBP 110-140 , DBP 50-90. Call us back if paramaters does not align with current status
I11.0: Hypertensive heart disease with heart failure
I50.42: Chronic combined systolic (congestive) and diastolic (congestive) heart failure
- HOME HEALTH ORDER*
- MEDICAL RECORD REQUEST*
- furosemide 40 mg tablet - Take 1 tablet(s) every day by oral route. Qty: (180) tablet Refills: 4 Pharmacy: DISMUKE'S PHARMACY
- nifedipine ER 90 mg tablet,extended release - Take 1 tablet(s) every day by oral route for 90 days. Qty: (90) tablet Refills: 4 Pharmacy: DISMUKE'S PHARMACY
- hydralazine 50 mg tablet - Take 1 tablet(s) 3 times a day by oral route for 90 days. Qty: (270) tablet Refills: 4 Pharmacy: DISMUKE'S PHARMACY

9. Left hemiparesis
per newphew ? CVA
G81.94: Hemiplegia, unspecified affecting left nondominant side

10. Lymphedema
chronic and seveve,
Small heel wound
I89.0: Lymphedema, not elsewhere classified
- HOME HEALTH ORDER* - Priority: **STAT**

11. Open wound of right heel, initial encounter
noted on exam
he is unsure HH has beentrataing it
Reports having PT coming- but is not sure " who they aare"
Called pt Nephew and MPOA and explain situation
Will placed an order to add RN for WC and Ref to HC wound care and tx lymphedema
S91.301A: Unspecified open wound, right foot, initial encounter
- ammonium lactate 12 % lotion - appr 2-4 grsm in both legs 2x a day Qty: (90) g Refills: 3 Pharmacy: DISMUKE'S PHARMACY Note to Pharmacy: 1 bottle
- WOUND CARE REFERRAL - Schedule Within: STAT Note to Provider: hh PAM

12. Chronic constipation
Constipation A/P:
Condition is chronic and stable
Orders placed below based on exam and symptoms.
We would cont with bowel regiment recomendation
> fiber
K59.09: Other constipation
- docusate sodium 100 mg capsule - Take 1 capsule(s) twice a day by oral route. Qty: (180) capsule Refills: 4 Pharmacy: DISMUKE'S PHARMACY

13. Type 2 diabetes mellitus with other specified complication, without long-term current use of insulin
DM associated with HLD
Chronic and stable
We would continue to monitor closely while on meds:
Last a1c and MA stable - blood work 1-2 a yrs
Eye MD --pending
Per pt nehew off meds
we would placed na order with HH to obtain labs
E11.69: Type 2 diabetes mellitus with other specified complication

14. Impaired gait and mobility
chronic and stable
No fall since last visit
Advised to contiinue with current exercise regimen and DME in placedc
cont with PT -Pam At home
R26.89: Other abnormalities of gait and mobility
